Career Objective

I am a pursuing Data Science student with a strong academic foundation and hands-on project experience, eager to contribute to an organization with an innovative vision. I am enthusiastic about joining a dynamic team where I can support data-driven research and development initiatives, bringing analytical insight and a collaborative mindset to drive meaningful outcomes.

Academic Qualifications

Qualification	Institution	Year	Marks/CGPA
B.Sc. in Data Science	Inspiria Knowledge Campus	2026	GPA: 7.8
Grade XII (COMMERCE)	ARMY PUBLIC SCHOOL	2022	72%
Grade X (CBSE)	ARMY PUBLIC SCHOOL	2020	68 %

Technical Skills

- PROGRAMING LANGUAGE:
 - Python,
 - SQL,
 - Excel, Tableau.
 - Data Cleaning, Data Visualization, Prediction Models
-

Projects

1. Maze Generator using Python

Algorithm implementation and Visualization

- Implementation of D.FS Algorithm

2. LIVE FOOTBALL Match Prediction

Data scraping and cleaning, evaluating and Random forest model implementation

- Developed a football prediction model using scraped live match data
 - Implemented and tuned random forest algorithm
-

Certifications

- Python , pandas, intro to Machine Learning , Data Visualization
- SQL
